

# Roxy film is confiscated, owner to appear in court

Roxy Theater owner Thomas H. Flynn, 67, took it in stride yesterday when Mayor Ralph J. Perks' stunt squad raided the theater and confiscated a copy of the movie "Teen-Age Cheerleaders."

"Every time they confiscate a film, my business increases because people find out it's a dirty movie," Flynn said.

Flynn was charged with pandering obscenity and is scheduled to appear this morning in Municipal Court. He was free on \$200 bond.

# 5 teams deadlock in CDGA best ball

Five two-man teams share the lead after Thursday's first round of the Cleveland District Golf Association's 36-hole best ball golf tournament at Tanglewood.

Shannon Oberlin and Russ Althans, Tanglewood, carded a two-under-par 33-36—69 to tie the two-somes of Fred Garrison and Condit Dipple of Columbia Hills, Dr. Frank Bellino and Ray Tesner of Tippecanoe, Jack Zwerner and Ed Rosenbergbaum, Beechmont, and Donn Daus of Wedgewood

and his partner Bill Peterson of Shaker Heights in Class AA.

Shannon and Althans hold the low net lead with a 62. Four teams are tied for second in the gross scoring with 70s while five more are deadlocked at 71.

He said he is trying to outlast City Hall until police, courts and city officials get together and set up guidelines to decide exactly what can be shown and what cannot.

# Grahams blank Al's on 3 hits

Pitcher Ed Miklavic furlwired a three-hit Thursday night as Graham Petroleum blanked Al's Market, 8-0, in PD-Class AAA baseball.

Why charge \$100 a year for a license and fill (Chief Police Prosecutor Everett A.) Chandler's office with movies and books? Flynn asked. "Why not charge \$2,000 for a license and leave us alone?"

Ken Schlessel of Lake Forest carded the day's only hole-in-one, the 140-yard 16th.

# South grows faster than West in '70s

WASHINGTON — The Census bureau says the traditional population flow from east to west and south to north is slowing and in some respects reversing.

Washington, D.C. — The Census bureau says the traditional population flow from east to west and south to north is slowing and in some respects reversing.

A new report by the bureau shows that so far in the 1970s the South has surpassed the West as the fastest-growing region of the United States.
