## 2 KENNEDYS HIT

### Invite Race Fights, Gov. Barnett Says

WASHINGTON (AP)—Gov. Ross R. Barnett of Mississippi accused President Kennedy and his attorney general brother yesterday of encouraging civil rights demonstrations which he said are "largely Communist-inspired."

Barnett told a Senate hearing that enactment of the civil rights bills proposed by the Kennedy administration not only would mean the end of constitutional government in this country, but would "result in racial violence of unimaginable scope."

"Turmoil will really break loose in this nation," he said, when the average citizen finds out exactly what is in the legislation. He said the proposed law is so sweeping that "it has been termed by many as the 'white slave bill.'"

Sen. A. S. Mike Monroney, D-Okla., challenged Barnett's statement that the Kennedys are "sowing the seeds of hate and violence," and also took issue with his implication that the demonstrations are Communist-led.

IN ANOTHER congressional hearing, Rep. Joe D. Waggoner Jr., D-La., said the President has issued "an open invitation to mass violence" by saying that Negroes will seek a remedy in the streets if Congress does not pass the civil rights bill.

Waggoner told a House judiciary subcommittee that advocates of the administra-

### Guardsmen Put End to Cambridge Riots

CAMBRIDGE, Md. (AP)—National Guardsmen—acting under a modified version of martial law—rolled into this terror-ridden town yesterday and with a minimum display of force put an end to a new Negro demonstration last night.

It was a marked contrast to Thursday night's reign of racial terror in which six white persons, including three off-duty guardsmen, were wounded.

Negroes and some white sympathizers, calling generally for equal rights and specifically for the release of two 15-year-old demonstrators confined as juvenile delinquents, gathered for a rally at the Bethel African Methodist Episcopal Church.

THEN 250 OF THEM started a march toward the white section, in defiance of a ban against demonstrations which the troopers with fixed bayonets had been sent in to enforce.

In a dramatic scene, Brig. Gen. George M. Gelston detached himself from a group of guardsmen and walked up the middle of the street toward the demonstrators. Slowly he went, unarmed.

Holding up his hand, he said:

"The National Guard was brought here to protect all the people. If you violate the

Cleveland's good name is on trial tomorrow . . . Port activities get back on the track . . . This area's business future looks rosy.

### Red China Concedes Talks Fail

MOSCOW (AP)—The Communist Chinese acknowledged "with heavy hearts" today that their talks with the Soviet Union had failed but held the door open for new attempts to heal the widening breach.

"We want unity, not a split," the official Peking People's Daily said in breaking the silence that had shrouded the Chinese-Soviet negotiations under way in Moscow since July 5.

But it said "the present situation is very grave."

THE NEGOTIATIONS sought to reconcile Soviet Premier Khrushchev's policy of peaceful coexistence with the West and Chinese leader Mao Tze-tung's advocacy of a tough line. Neither of these top Communist chieftains took part in the discussions.

Communist sources said the meetings are expected to wind up in two or three days.

The poker-faced Chinese delegation, headed by Communist party Secretary-General Teng Hsia-ping, was believed to have spent a half day yesterday meeting with Soviet party Presidium member Mikhail Suslov, chief Russian negotiator.

The Peking editorial, broadcast by the official New China News Agency, said it had hoped relations with Moscow would be eased by the talks, "but we now have to point out with heavy hearts that events have gone contrary to our hopes."

THE ADMISSION of failure came two days before the scheduled opening in Moscow of the U.S., British and Soviet

### Hits 6 Cars and 2 Homes

A car driven by Donald Ratliff, 27, of 8400 Russell Lane S. W., crashed a stop sign, hit a dip in the road and sailed into six cars and two houses on Grace Avenue S. W. yesterday, according to Accident Investigation Unit patrolmen Hubert Forrey and Robert Neary.

Ratliff is in fair condition at St. John's Hospital with compound fractures of the left arm.

Police estimate damage to the cars and homes at \$109 and \$113 Grace at \$7,000. Ratliff's 1963 auto was demolished.

### In-Migrant Pupils' Cost Put in Millions

By ANN SKINNER

Children who come to Cleveland from out of state without their parents to attend school here may be costing local taxpayers as much as \$2 million yearly, John J. Gallagher, chairman of the school finance committee, said yesterday.

Gallagher, who has said that \$1.5-million a year would be needed to correct salary inequities in the school system, raised the question of the so-called "indigent children" at a meeting of the finance committee yesterday.

"There are at least 5,000 of them and perhaps 10,000," he said. They come mainly from southern states, he added, and live here with relatives or friends.

SCHOOL DISTRICT law, Gallagher said, requires that a child's parents or guardians be residents of the district where the child is a student. "We wouldn't accept a child from Parma or East Cleveland in our schools," he said.

In-migrant children without parents do have to seek a waiver of tuition, he explained, but it is generally

granted if the persons they are living with will sign a statement of responsibility for the child's actions.

Cleveland schools spend about \$380 per child per year.

"WE WILL CHECK enrollment lists much more carefully next fall," Gallagher promised.

The finance committee heard Harley Evans of the Cleveland Education Association ask for "a package levy" for school needs and teacher salary inequities.

Gallagher said the board would vote on the levy question at its next meeting but that "from the reaction of the finance committee I do not think we will recommend it."

### Ecuador Chief's Slur Disclosed

By THOMAS J. STONE

QUITO, Ecuador (AP)—Carlos Julio Arosemena bowed out as Ecuador's hard-drinking, blunt-speaking president as the result of an embarrassing exhibition climaxed by a slur at the U.S. government before the American ambassador.

Ecuador's president was forced out of office in disgrace Thursday as a drunk. The final act that moved the military to oust him occurred at a formal dinner. Here is what happened, as reconstructed from accounts of some who attended.

It happened in the presidential palace Wednesday night at a banquet honoring Adm. Wilfrid J. MacNeil of New York, president of Grace Line, whom Arosemena had decorated only moments before.

Those present said Arosemena was thick-tongued and swaying on his feet when he said:

"The people of Ecuador and those of the United States enjoy cordial relations, but it exists only between the two people. The government of the United States exploits Latin America and exploits Ecuador."

AN EMBARRASSED hush fell on the 70-odd dignitaries and wives seated at the banquet table, among them U. S. Ambassador Maurice M. Bernbaum. Twenty-four hours later Arosemena was on a plane for Panama, bound for exile.

Arosemena's remarks at the banquet surprised his guests because events had gone smoothly until then. At the presentation ceremony, Arosemena had read without mishap from a prepared text and sat down to applause.

As the guests began to eat, Arosemena got to his feet and

### More 90s Ahead; Firm Sprinkling Ban Sighted

With Weather Bureau Forecaster Frederick K. Oplinger calling for highs of 90 and only scattered showers today and tomorrow, Vincent DeMello, Cleveland utilities director, said an official, enforced sprinkling ban is a possibility as early as Monday.

"We had the highest 11-day pumping record in the history of the water plant, an average 437 million gallons per day, since July 1," DeMello said yesterday. "People closer to Cleveland are going to use up all the water and not leave enough for the outskirts," he warned.

DeMello estimated the sprinkling load at 150 million gallons a day. "When it got cool, people forgot about the odd-day-even-day sprinkling rule put into effect in June's hot spells," he said.

Yesterday's high temperature was 89, with a 74 (slightly below uncomfortable) temperature-humidity index reading.

### 138 Derby Cars 'In'; 40 to Go

(Photos on Picture Page)

One hundred and thirty-eight racers passed yesterday's final inspection, and another 40 will be examined this morning in preparation for tomorrow's 1963 Soap Box Derby.

The derby, sponsored by The Plain Dealer and Greater Cleveland Chevrolet dealers, will start at 1 p.m. on the Inner Belt near the Central Avenue S.E. eastbound exit.

One car was rejected yesterday because its sheet metal frame violated derby regulations. Alex Machaskee, derby director, said another 60 were accepted only after last-minute adjustments at the Sohio tuneup tent near the course.

DRIVERS TO WATCH in tomorrow's event include all three of last year's Class B finalists and a Class A finalist.

THE WINNER will receive

### 2 Top City Officials Will Turn in Autos

By DONALD SABATH

Two more members of Mayor Ralph S. Locher's cabinet have decided to turn in their city-owned cars.

Law Director Bronis J. Klementowicz does not use his city-owned car after working hours, he said yesterday. Port Director William J. Rogers will give up his car as soon as he purchases a new one.

Rogers yesterday also ordered all employees in his department to stop driving city cars home. The only exceptions are Donald W. Patrick, airport commissioner, and Henry Silverthorn, harbormaster.

Klementowicz and Rogers now join Finance Director Edward C. Knuth in giving up city-owned vehicles.

The directors are complying with Locher's directive

that no city employee may take a city car home unless the vehicle is needed for city work early the next day.

Knuth yesterday said the car policy should be completed and working within two weeks.

Klementowicz said he had not driven his car home for three or four weeks.

Rogers, who drives a 1963 Ford, said he did not have his car marked and he would rather turn in the vehicle.

A CITY ordinance requires

### Death Is Laid to Weed Killer

Plain Dealer Special

CHARDON—A chemical weed killer was ruled yesterday to be the cause of the death last Sunday of a two-year-old Burton boy. He drank it.

Dr. Alton W. Behm, Geauga County coroner, said last night that chemical tests showed that the boy, David Kren, son of Mr. and Mrs. Wilhelm Kren, died from the weed killer. The Krens live at 272 Snow Road.

Earlier it had been thought that the boy died from chewing on a weed that had just been sprayed with the weed killer. But Dr. Behm said the high concentration of the weed killer and the time element involved indicated the child must have drunk the poison from some container.

### Racketeer Posts Bail of \$50,000

Alex (Shondor) Birns was out from behind bars last night.

Birns, held in the investigation of the slaying of Marvin L. Gold, was free on \$50,000 bail bond put up by George J. Argie of Argie's Bail Bond Service, Film Building.

The bond is intended to assure Birns' presence Wednesday at a coroner's inquest into Gold's death.

"I'M GOING HOME to take a shower," was Birns' answer to reporters' questions as to where he was bound.

Handcuffs were removed from his wrist in the clerk's office in the Criminal Courts Building by Sheriff's Deputy Herman Lutz as Birns placed his signature on the bond papers.

This formality concluded. Birns cocked his summer straw, waved goodbye to reporters and spectators and walked out of the building, down the front steps to where his attorney, James R. Willis, was waiting.

Willis, at the wheel of a white convertible Cadillac, drove off with Birns.

CONTRARY TO what had been expected, no other law authorities, Cleveland police or FBI, attempted to rearrest Birns.

"When we want him, we'll go out and get him," said Police Lt. Carl Delau. Birns, object of a five-day search concluded Thursday morning when he gave himself up to Sheriff James J. McGettrick and his aide, John Kocivar, had spent less than a day and a half in jail.

ALL THE TIME Birns protested his innocence and pro-
