After Diet, 4 Losing Tries

Boy Coasts to Derby Victory

Terry Doffelein is a very determined youth. Yesterday his determination, which had been a year-old dream of winning the Greatest Cleveland Derby, came true.

The local derby is authorized each year by the Plain Dealer Publishing Co. at Cleveland Chemical Depot.

Terry coasted to victory, knocking off other boys in a record 2:08.5 of four earlier horses.

In last year’s event, it was accomplished in 2:08.6 by a horse that had been trained for three years. This year, the winner surprised everyone by running the distance in 3:15.3.

Doffelein’s record was set in 1963 on July 4th, when he first ran the race.

**Radar Plane Down; 19 Aboard**

**Buffalo**—An Okinawa C-130 military cargo plane crashed and exploded on contact with a hillside near the airport on Okinawa Island in Japan, killing all 19 aboard.

The crash took place at 3:45 a.m. today, causing a series of explosions that lit up the sky over the island.

The plane had taken off from an airfield near the airport and was on its way to ait Kadena Air Force Base, located about 10 miles southeast of Okinawa City.

**'Saucers' Seen Over Portugal**

LISBON, Portugal—Strange objects moving through space were reported sightings in two widely separated areas of Portugal yesterday. The affairs were similar, and the objects appeared to have been flying at similar times.

The first report came from the army's headquarters in Lisbon, where General Antonio de Oliveira Salazar said that strange lights were observed in the sky.

The report was confirmed by the Portuguese government, which said that the objects were flying at a very high altitude, near the coast of Madeira Island, and that they disappeared without trace.

**Found in Romania**

**Here's an Oddity; Modest Reds**

**BOSTON**—The C.I.C. has revised its estimate of the number of Russian troops in the Far East to 51,000. This is the largest number of Russian troops ever reported in the area.
